A Young SEO Agency

- Started in 2008 to provide cost-effective SEO services and to take SEO within the reach of growing businesses, while providing the quality of large and established SEO firms
- Today, VTech SEO has a presence in New Delhi, Mumbai, Bangalore and USA

Management

- The VTech SEO team includes experienced professionals in search engine optimization, web design, content, technology and animation. The management of the company includes:
- **Mukul Verdia *CEO and founder Director***
India's pioneering professional in the optical disc industry. Mukul's expertise spans technology, hardware and marketing. At VTech SEO, Mukul manages client relations, business development, finance, diversification, and organizational asset management.
- **T.P. Raghupati *COO and Director SEO***
With close to 15 years' experience in advertising, marketing communications, web design and online marketing, Tushar has worked as the head of SEO in established agencies and multi-national publishing houses. Tushar manages SEO strategy and operations besides being the industry thought-leader of VTech SEO.
- **Kristi Yokley *Director – International Business***
Based in the USA, Kristi has over 15 years experience in writing, customer / public relations and human resource management. Kristi is also a writer, and a specialist in communication and public relations. Besides managing the content projects at VTech SEO, Kristi is also responsible for all the international projects of VTech SEO.

Partial Client List

- A diverse mix of clients from India, UK and USA
- For services including graphic design, web development and SEO
- Including web design and online marketing agencies, for white label outsourced SEO services

For a better quality of life

Track Record

- Proven results across over 50 SEO projects handled by the team
- Some of the projects have seen a doubling of SEO traffic in less than 3 months
- Highly competitive keywords have moved from page 7 to page 1 in less than 3 months
- We have many more landmark case studies in SEO to our credit
- All this and more achieved strictly through white-hat SEO. We do not do black-hat even if clients expect and demand it.
- We do not commit to results by way of ranks or traffic. However, in most cases, the results achieved have far exceeded client expectations
